

## ANNUAL CHRISTMAS TREE RECYCLING

Beginning on Monday, January 5, 2009, and continuing through Friday, January 16, 2009, Department of Public Works crews will be collecting Christmas trees from city residents. Trees must be placed at the curblineline of city streets and will be collected the same day as regular solid waste. Residents whose solid waste collection is from the alleyline, must place trees at the curblineline in front of their residences for collection. Wreaths and other decorative greenery should be disposed of with regular solid waste.
