## Getting It All Together

It's official now. Starting this week, Racine residents can mix the garbage and rubbish they put out for city collection. Instead of twin trucks — one for burnables and one for cans and rubbish — going through neighborhoods, there will be a single collection truck. Making a pickup this morning in the 4100 block of LaSalle Street were Dennis St. Martin, left, of 3148 Kearney Ave., and Mike Roeschen of 931 LaSalle St. The change became possible when the city closed its incinerators and went to a sanitary landfill operation for all wastes. Collection routes are being cut from 29 to 21.
