

# DO YOU KNOW YOUR NUMBER?

## RADON BY THE NUMBERS

Radon is an invisible, odorless, natural radioactive gas that can build up to dangerous levels indoors. It is the leading cause of lung-cancer in non-smokers.

### RADON IN THE U.S.

21,000

lung cancer deaths each year due to radon

4.0 pCi/L

acceptable level of radon in most states

1 out of 15

homes have high radon level

\$800-\$2,500

typical cost to fix a home with elevated radon levels

### RADON IN RACINE

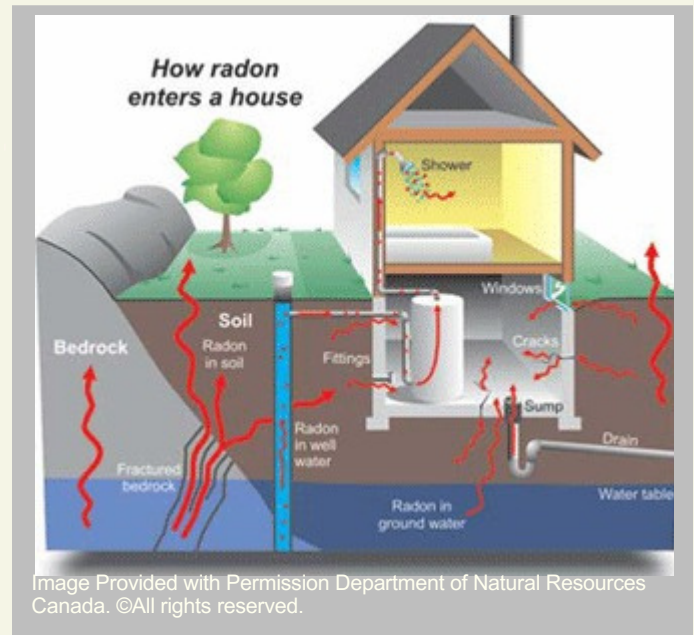

43%

test results  $\geq 4.0$  pCi/L from 2008 - 2016

\$5 and \$10

cost of a short-term and long-term radon test kit  
from the City of Racine Health Department

**Don't be clueless. Test your home. Know your radon number.**

- Testing your home is the only way to know if you are at risk from radon.
- Testing is inexpensive and easy.
