

# A Simple Step Protects Us All

Safe storage prevents unintentional injuries, homicide, and suicide.

The QR codes below will take you to a video of the cable lock installation procedure for each type of firearm listed. If you're unable to use the QR code, you can use the link or follow the instructions.

Before installing a cable lock in any gun: Point in a safe direction and completely unload it.

## Revolver

With the cylinder open, insert the cable through the barrel or an empty cylinder chamber. If the cylinder can still latch, run the cable back through a second chamber.
